

# **PictureTally**<sup>®</sup> River City Software

## Product Description

PictureTally<sup>®</sup> uses digital photography to perform rapid, accurate end tallies of hardwood bundles.

Detailed tallies and bundle photographs are instantly on-line with the PictureTally Web lumber viewer.

PictureTally will also load bundle tallies into your existing inventory system.

## Benefits:

- Fast
- Accurate
- Photograph
- Sales tool
- Productive
- Tally time reduced 66%
- Never miss a row
- Keep an exact record
- Comfortable environment
- Quick and on-line

## How it Works:

The PictureTally system is located in front of a bundle cradle or pointed at a production line. Each bundle is photographed.

PictureTally uses advanced digital imaging to find and measure every board in the bundle.

A quick review cycle by the operator and the tally is saved into your inventory system.

Optionally print one or more custom bundle tags.

For multiple length packs, PictureTally automatically finds short boards marked with a lumber crayon.

When using the PictureTally web, bundle tallies are on-line immediately.
